This training includes instruction in the technical knowledge and specific nursing skills that will be covered by the State Board exams. At the end of the course, graduates are issued a Proof-of-Training-Affidavit that is required to submit an application to take the State Boards. This Proof-of-Training-Affidavit is only valid for a period of 24 months, after which it expires. Most of our graduates take the State Boards approximately one month after they have completed our course.
