

Music Therapy						
Name	Address	Phone Number	Hours	Website	Email	Notes
80045						
Children's Hospital of Colorado	13123 East 16th Ave Aurora, CO 80045	720-777-4360		<a href="https://www.childrenscolorado.org/doctors-and-departments/departments/psych/programs/creative-arts-therapy/music-therapy/">https://www.childrenscolorado.org/doctors-and-departments/departments/psych/programs/creative-arts-therapy/music-therapy/</a>	<a href="#">Email on Site</a>	Music therapists involve children in singing, listening, playing and creative activities. These activities can help develop a child's self-awareness, confidence, coping skills, social behavior and pain-management techniques. Our music therapists explore which styles of music, techniques and instruments are most effective or motivating for each individual child. No musical experience is necessary in order to benefit from music therapy.

Kindermusik - With Miss Amy Mobile Class - Monument Little Sprouts - Enrolled Students ONLY	77 Third Street Monument, CO 80132	719-232-2465	Weekdays	<a href="http://www.kindermusik.com/creativemusicconcepts/">http://www.kindermusik.com/creativemusicconcepts/</a>	<a href="mailto:hollisfamilyband@gmail.com">hollisfamilyband@gmail.com</a>	Music is powerful. It can excite, energize, calm, and comfort. It can thrill you with its beauty or reduce you to tears. It can lift your mood after a bad day; invoke a memory from long ago; and get you tapping, swaying, and dancing when you least expect it. But music's ability to conjure emotions is only part of why it's so incredible. Music is a wonderful conduit for learning, especially in young children. When paired with movement and instrument play, it creates neurological magic, lighting up a child's brain and positively impacting all areas of development. The benefits of music education are truly transformational. * <b>Infant and Toddlers *</b>
